DEVELOPER EXPERIENCE

LocalToMe, *Front-End Developer, September 2022 – December 2022*

https://github.com/phoenixlai833/LocalToMe

LocalToMe is a web application that locates and provides low-income families/individuals with free & accessible food resources near their area within their budgets.

Tech Stack: Next JS, React, Mapbox, Firebase, Styled-components, Storybook,

- Scripted, organized, and wrote documentation in storybook for over 20 reusable components that were used throughout the project.
- Closely worked with back-end developers to ensure front-end components connected to the database, by performing code reviews and maintaining a good debugging protocol.
- Worked in an agile environment, where we would have weekly stand ups and sprint reviews and plannings.

RainCheck, *Front-End Developer, January 2023*

https://github.com/null-name-qds/hackathon

RainCheck is an interactive map web application providing insights on the Vancouver housing market and lets you know how long it takes you to afford one. Created during BCIT's QDS 2023 Hackathon.

Tech Stack: Next JS, React, Axios, Mapbox, Styled-components, TailwindCSS.

- Assisted in the fetching of data from the API and displaying the data into information for our web application.
- Scripted and styled components that would later be connected directly to the api we fetched data from.

Share Food, *Lead Developer, February 2022 – May 2022*

https://github.com/Pho86/ShareFood

ShareFood is a web application that has the goal to save food by sharing it with others; whether it be receiving or giving away leftover foods. It tells you details about the food and has many fun stories to explore.

Tech Stack: Next JS, React, Styled-components, Material UI

- Conducted user testing and translated findings into UI/UX solutions that were later developed.
- Scripted and maintained a JSON file to handle our data.

SKILLS

Frameworks and Front-End
Next JS, React, React Native, Expo, Nuxt 3, Vue JS, Node JS, Express JS, Styled-components, TailwindCSS, SASS, Storybook

Languages
HTML, CSS, Javascript, Typescript

Databases
Firebase, SQLite

Design
Adobe Creative Suite, Figma, Godot

Tools
Git, Vercel, Heroku, Github, Trello, Agile

EDUCATION

Digital Design and Development Diploma, *British Columbia Institute of Technology*, September 2021 – May 2023
